

ENTOMBED IN A MINE

Death Reaps a Harvest Among Men Who Work Underground.

FIRE FILLS WORKINGS WITH F. MES.

Little Prospect of Recovering Alive Any of the Imprisoned Miners For Whom Hands Find It Impossible to Go to Their Rescue.

Telluride, Colo., Nov. 21.—Nearly 100 men were probably suffocated in the Smuggler Union mine in Marshall basin as a result of the fire which consumed the buildings at the mouth of the bullion tunnel. There are 22 miners known to be dead and scores of others are in the mine workings either suffocated or seeking safety in remote part of the mine until the place is cleared of foul gases and smoke.

Fire broke out in the tramway bunkhouse at the mouth of the bullion tunnel, the principal opening from which the property is worked, and spread rapidly to the boiler and engine house, blacksmith shop and tramway terminal with its great ore bins and several smaller buildings were soon wrapped in flames.

A strong draft drew the smoke from the burning buildings directly into the tunnel and the miles of drifts, upraises and slopes connecting with it began to fill rapidly with smoke. In the excitement of trying to control the fire in the outside buildings, the mine was forgotten and before the situation was realized, the workings were fast filling with dense smoke. By this time the buildings about the mouth of the tunnel were ablaze and nothing could be done to stop the smoke from going in. As soon as it was possible, great bodies of rock were blown down into the tunnel mouth and the opening stopped, but not until the workings were filled and the smoke working its way through the shafts to the surface, a mile or more up the mountain from the tunnel house.

The day shift, some 200 men, had gone into the mine and reached their stations before the fire started. It is known that some of the men escaped through the old Sheridan tunnel and also through the old Union workings, but they are thought to have been but a small part of the force in the mine.

The Smuggler Union is the largest mine in Telluride district, the output being about two-thirds of the total from the camp. It is owned by New York and Boston capitalists.

Persons who have come into town from the Smuggler Union mine, which is four miles distant, between Marshall Gulch and the mountains, say the workers have almost abandoned hope of finding any of the imprisoned men alive. Every entrance to the property is the scene of active work and willing hands are stayed only by fear of certain death if they enter the smoke-filled levels.

The officers refuse to talk, either in giving information or in expressing opinions as to the likelihood of early rescue of the unfortunates yet in the mine. They will only say the work will be continued until everybody has been recovered and will be hastened in the hope that many may be found alive. The telegraph and telephone wires were destroyed by fire and the only means of communication is by messenger.

Mrs. Dale Arrested.

New York, Nov. 21.—Mrs. Elizabeth Dale of Chicago, who was arrested in Hoboken, accused of the murder of her 5-year-old daughter Emmeline, was arraigned in Hoboken. Mrs. Dale was accompanied by her lawyers, Russ and Heepenhelm. Police Captain Hayes, who presented the charge against her asked that the examination be postponed pending the autopsy. The adjournment was granted and on recommendation of her physician the prisoner was sent to St. Mary's hospital, where she will be guarded until she is again called into court. Elbert Waller, who was Mrs. Dale's companion when she arrived in Hoboken recently and who was arrested on the charge of illicitly living with her, also was arraigned in court and court ordered him committed to prison in default of \$1,000 bail.

Aguinaldo's Request.

Manilla, Nov. 21.—In a letter Aguinaldo has written to General Chaffee, the captive Filipino chief asks permission to go before the American congress and express desires of the Filipino people. Aguinaldo further requests to be accompanied by eight friends whom he designates, four of whom are prisoners at Guam, while the others are prominent in Manilla. Sixto Lopez, who has been in the United States and in Europe in the interest of the Filipinos and who is now at Hongkong, has written Governor Taft asking to be exempt from taking the oath of allegiance to the United States upon his arrival at Manilla, asserting this action might injure his labors in behalf of peace.

CLASH THREATENED.

Miners Say They Will Not Disband. Officers Say They Must.

Madisonville, Ky., Nov. 21.—Everything is quiet in the mining district. The union miners in camp in the county say they will ignore county Judge Hall's order to disperse, and it looks as if there will be a serious clash between the authorities and the campers Saturday. President Wood of the United Mine Workers say the men will not disband.

Judge Hall says: "If the miners in camp are not dispersed by Saturday morning at daylight I shall call upon General Murray and his troops to disperse them. This is positive and final. Nothing but superior force can prevent me from accomplishing my fixed purpose to break these camps and end this lawless state of affairs in Hopkins county."

Adjutant General Murray says: "I and my 70 men are subject to the orders of county Judge Hall. If he directs me to make his order effective Saturday morning I shall deem it my duty to comply."

MYSTERIOUS MAN.

An Englishman Who Claims to Be a Professional Forger.

Cincinnati, Nov. 21.—William Vincent West, alias John Verrell of Tunbridge Wells, England, who surrendered to the police at Indianapolis, claiming to be a professional forger, was first known in this city about five years ago when he met and married a Miss Matson of Cleves, a niece of former Judge Matson. His wife found him a mysterious man. He told her conflicting stories and received mail under several names. He often mysteriously disappeared, but always returned with money. He is charged here with embezzling a small sum from a tea store at which he had secured employment. It appears he only used the retired home at Cleves as a refuge and when his wife discovered his wrong doing and refused him further shelter, he disappeared.

Brokers Kick on Revenue Tax.

Washington, Nov. 21.—A delegate from the consolidated petroleum exchange of New York consisting of Frank D. Pavey, George C. Thomas, Robert M. Jarvis and Mortimer Wagner, president of the exchange called upon President Roosevelt to protest against further continuation of the war revenue tax upon stock transactions. They presented a brief embodying their objections to the tax, which they say is an especial burden on "room traders," costing them from \$6,000 to \$50,000 per annum. They contend that the tax is class legislation and a tax upon enterprise and commercial activity. They did not ask the president to recommend the repeal of the tax in his message. Mr. Thomas is now making a test case of the question in the courts.

Telegraphers Arrested.

New York, Nov. 21.—John B. Berthoff, manager of eastern division of the Western Union Telegraph in Jersey City, was arrested on the charge that he has been carrying on a "green goods" business. The complaint was made by Chief of Police Murphy. The police have in their possession several circulars sent to the south and west and claim they can show that the telegraphic replies of prospective victims went direct to Berthoff. Isaac Kershaw, a telegraph operator who transmitted some of the telegrams alleged to have been received by Berthoff and gave the police a statement against him, was also arrested on a charge similar to that preferred against the manager. Bail was fixed at \$1,000 in each case.

Filled With Shot.

Chicago, Nov. 21.—Charles and John Miller, brothers, of Toronto, Canada, were riddled with small shot and the former will die. John was seriously wounded. The shooting was done by Robert Coburn, who thought the men were about to rob his henroost. John Miller said he and his brother were without money and were merely seeking a lodging in Coburn's barn. Coburn drove four miles to a police station with the unconscious form of John Miller in the bottom of the wagon. The police found the latter's brother two hours later. Coburn was detained by the police.

Fatal Fight With Hunters.

Middlesboro, Ky., Nov. 21.—In a fight with Virginia hunters who crossed the line into Tennessee, near here to hunt, one man was killed. The law does not permit game to be carried from the state of Tennessee and does not allow hunting on farms where notice is posted forbidding it. John Smith and his sons armed themselves and drove the hunters off. In the fight Thomas Wallace was killed.

Huntington, W. Va., Nov. 21.—A sale has been made of 30,000 acres of coal lands in Wayne county to a Pittsburgh syndicate which it is understood will oppose the present coal trust. This makes a new line of railroad from eastern Lynne to Huntington a probability.

ALL QUIET AT COLON

Loss of Life Is Greater Than Was Stated in First Reports.

CONSERVATIVES YET HOLD PANAMA

Liberals Are In Possession of Important Railway Depots — No Immediate Attack on Panama — Machias Protecting Foreign Interests.

Colon, Colombia, Nov. 21.—The city of Colon is perfectly quiet. It is claimed in behalf of the Liberals that there has been no unseemly behavior. Foreigners are being respected and protected and transit across the isthmus is uninterrupted.

The postoffice, prefecture, all the other government offices and nearly all the commercial houses were closed.

Colonel Barrera, commander of the Liberal forces asserts that he has notified the district representative of the department of the interior and other former officials of the government and that he appointed a commission to formally take over their offices Tuesday. Senor Espriella, a prominent lawyer and counsel for the Panama railroad is a member of the commission. The feeling of the community cannot be regarded as antagonistic to Liberalism. The existing conditions have created no panic but it is recognized that the fact that the Liberals hold Colon while the Conservatives are in possession of Panama creates a state of affairs which cannot possibly continue.

Colonel Barrera admits that the government troops here numbered a little less than 120 men. It was at first reported that 12 men had been killed and about 20 wounded, but the bodies of more dead men have since been discovered. The inspector of customs escaped on an outgoing steamer. Several prisoners captured by the Liberals have been released.

General Zaldivar commands 200 Liberal troops at Gatun railroad station, about six miles from Colon, and more armed men left here Thursday for that place. The Liberals claim to be in possession of all the railroad stations between Colon and Las Cascades, which is nearer to Panama than Colon. No immediate attack on Panama is contemplated. Colonel Barrera is awaiting the arrival at Colon of the Liberal chief, Domingo Diaz, who is expected in day or two. When Diaz reaches this city definite plans will be formulated. General Sarria commands the government forces at Panama.

General Petino, the original commander of the Liberal forces which captured Colon, is said to have intended to capture the Colombian gunboat General Pinzon in person and some say the general was drowned in an effort to reach her in a boat which capsized. Colonel Barrera, however, denies this, but there is no doubt that the capture of the General Pinzon was contemplated.

The United States gunboat Machias, it is understood, will not interfere with any of the fighting, but will protect the railroad and foreign interests.

New Tobacco Combine.

New York, Nov. 21.—A movement of significant character to tobacco interests is attracting much attention in the trade and financial districts. It is a project for a new tobacco combination, which when completed is likely to have a capital stock of \$50,000,000. Besides the Universal Tobacco company, the nucleus of the combine, the more important concerns to be taken over are the Havana Commercial company, Henry Clay and Book & Company, D. H. McAlpine & Company and Wiesenger & Company. Some minor properties are also to be acquired. The consolidated company is likely to be incorporated under the laws of New Jersey, but it is stated on authority that this move is not likely to be made for several weeks.

Would Tax Corporations.

Columbus, O., Nov. 21.—In his report for the year ending Nov. 15, 1901, State Secretary Laylin recommends legislation requiring corporations for profit, both domestic and foreign, to file annual statements with the department of state and to pay annual fees based upon the amount of the capital stock and the business done by them in Ohio. He makes no suggestion as to the rate of taxation. It is estimated that the aggregate capitalization of all corporations doing business in Ohio is approximately \$3,000,000,000. A state tax of one-tenth of 1 per cent upon this amount would yield \$3,000,000 annually.

Situation on the Isthmus.

Washington, Nov. 21.—The secretary of the navy received a cablegram from Captain Perry, commanding the battleship Iowa, dated at Panama, saying that everything was quiet and that no further interference had occurred. Transit and telegraphic communication are open. Colon is in possession of the Liberals and quiet.

SWITCHMEN'S STRIKE.

Railroad Company Imports Strike Breakers—Strikers Look On.

New York, Nov. 21.—Officials of the New York, New Haven and Hartford railroad are striving to break the strike of the switchmen on the Harlem division of the line and express confidence in their ability to do so. Twelve men brought here from Boston were put to work and one of the railroad officials said 300 additional men engaged to take the places of the strikers would be at work in the yards within 24 hours. A train bound for Boston was made up by five regular men and later 12 men brought from Boston began making up another train. The men worked under police protection, but the strikers made no attempt to interfere with them. The strike has tied up large quantities of freight. A large number of strikers assembled on the Willis avenue bridge and watched the new men at work, but were driven away by the police. The strikers were in session and it was expected that they would make some effort to extend the strike.

Val Fitzpatrick, third vice grand master of the Brotherhood of Railroad Trainmen, arrived here from Syracuse and at once called a meeting of Empire City lodge No. 97, Railroad Trainmen. Before going to the meeting, Mr. Fitzpatrick said he thought the men had acted altogether too hastily. He hoped that matters would be fixed up and that the men would return to work. Mr. Fitzpatrick will confer with the railroad officials.

If French Miners Strike.

Paris, Nov. 21.—The question of a general strike of the French miners is again causing anxiety. Since the reopening of the chambers the premier, the minister of commerce and the minister of public works have been busy with audiences in which they formulated their opinion. The labor exchanges ring nightly with speeches by stump orators. The miners demands, shorter hours, more pay and pensions, would if granted, involve an annual expense to the state of 80,000,000 francs. It is evident that the leaders of the miners take no real interest in a complete settlement. The demands, if granted, would inevitably cause the ruin of the majority of mine properties and shareholders. If a general strike takes place, it may prove a question of life or death to the republic. The importation of foreign coal would result in violence on the part of the miners. What would be the conduct of the soldiers, so long the object of the incitations of the reactionaries and Socialists, and can the government count on the troops, are questions of deep concern.

As to Bankruptcy Law.

New York, Nov. 21.—The National Association of Referees in bankruptcy has about completed its investigation to learn the sentiment of business men throughout the country regarding changes desired in the national bankruptcy law. No report can be published until the results have been turned over to the judiciary committee of the national house of representatives. It was at the request of the Hon. George W. Ray of this committee that the investigation was undertaken. Many local business men say there is no doubt that the report will indicate a sentiment in favor of national as against state legislation and also in favor of amendments to the present law in accordance with the bill prepared by Mr. Ray.

King Edward's Health.

London, Nov. 21.—Commenting upon the statement of physicians recently regarding the health of the king, from the highest sources of information come the most reassuring accounts of the king's health. Those who have recently been driving and shooting with him assert that he laughs heartily over the reports about his failing health, and has proved the falsity of them by exposing himself recklessly in the hunting field and by shooting hour after hour in the wind and rain. Those recently with him assert that he has no throat ailment whatever and that his general health and spirits are now better than for a long time.

King Cut Off Their "Perks."

London, Nov. 21.—King Edward has checkmated the thrifty British nobles and others who proposed to line their pockets with American and continental gold by the sale of seats in Westminster Abbey for the coronation ceremony, by decreeing that except in official capacity, none but British subjects are to be present. He has decided that the mere fact of any seat being sold dispossesses both the holder and the nominee from the right of occupying it. It is understood that large sums have been offered both in America and Europe for seats to witness the coronation.

Chicago, Nov. 21.—John H. Burke, a well-known hymn writer and singer, for years identified with D. L. Moody, and other evangelists, is dead at his home in Wheaton, Ills. Mr. Burke was the composer of the popular hymn "Not I, But Christ."

LEAPED INTO FLAMES.

Unknown Men Deliberately Suicides In a Horrible Manner.

SHOCKING SCENE FOR THREE MEN.

Without a Word the Stranger Sprang Upon Hoisting Car, Rode to the Top of the Furnace, Plunged In and Was Roasted Alive.

Pittsburg, Nov. 21.—An unknown man threw himself into one of the furnaces at Schoenberger's mills, Fourteenth and Etna streets. Almost his entire body was roasted beyond identification, his left foot being the only part not disfigured.

The man was seen to enter the mill yards and stand at the foot of the hoisting car which carries ore, coke and other supplies for the furnaces. The moment a warning was sounded for the cage to ascend with its burden, three workmen saw the suicide jump on the platform and stand within a few feet of them. They were confused and did not know what to think of him, as no one but employees is allowed on these cages. When the top of the furnace was reached, nearly 100 feet from the level, Thomas Lee determined to order him away. The huge crib was opened to allow the car of coke to roll into the furnace and the bell was lifted, throwing a terrific heat from the fiery substance underneath. Lee had not had time to open the cage of the hoist when the man jumped into the furnace. Quick as a flash Lee saw the action and dropped the bell, but all too late. The man was buried head and shoulders in the flames. The lid of the bell caught his left foot saving only it from being consumed. He was pulled out by the three men but nearly every part of his body resembled a piece of half-cooked meat.

No one can remember of ever having seen the man before and it is probable will never be identified. The body was removed to the morgue. The deceased was about 35 years old, medium height, sandy mustache and apparently an American. He wore black laced shoes.

Hoosier Hanged Himself.

Junction City, Kan., Nov. 21.—W. D. Buchanan of Troop D, Fourteenth cavalry, located at Fort Riley, near here, who killed Policemen White and Cooper Tuesday night, was found dead in his cell. Buchanan committed suicide by hanging, having made a rope of a towel. Buchanan ran wild through the streets shooting at everyone he passed. There was no cause for the killing of the officers. He was not arrested until next day, when he was found hiding in a stable at the fort. There was talk of lynching, but this had subsided. Nothing much is known here about Buchanan. He enlisted from Indiana about 10 months ago.

Farmer's Queer Suicide.

Batavia, O., Nov. 21.—Peter Bauer, farmer, suicided by placing a ladder in such a position that when it was released it fell across his throat strangling him to death.

Indiana Odd Fellows.

Indianapolis, Nov. 21.—The Indiana grand lodge I. O. O. F., in session here, elected the following officers: Grand master, George P. Bornwasser, New Albany; deputy grand master, E. E. Pryor, Martinsville; grand warden, Alexander Johnson, Fort Wayne; secretary, W. N. Leedy, Indianapolis; grand treasurer, W. N. Morris, Frankfort; grand trustee, Benjamin Franklin, Indianapolis. Thomas R. Jessup, of Richmond, was chosen representative to the sovereign grand lodge.

Fire in a Menagerie.

Peru, Ind., Nov. 21.—Fire destroyed the winter quarters of Wallace's show where the animals are kept. The fire started in the elephant house, a barn-like structure and spread rapidly. The animals became panic-stricken and their cries of terror mingled with shouts of trainers and employees trying to drive them out of danger. The animals were all safely removed but the entire city destroyed.

Train Robber Pleads Guilty.

Washington, Nov. 21.—Postoffice Inspector Houk telegraphed that Walter S. Rattan, alias Ben Starns, one of the highwaymen who held up an M. & T. train and robbed the United States mail at Caney, I. T., entered a plea of guilty to the charge at Antler, I. T. "He was leader of the gang," wires the inspector, "and is an escaped convict from penitentiary in Tennessee."

Miner's Body Recovered.

Ishpeming, Mich., Nov. 21.—The body of Edvard Riberty, the carpenter who went down into Lake Superior No. 6 mine with the cave of ground from the surface Aug. 29 has been recovered. The Lake Superior Iron company spent nearly \$5,000 in the search for the body. It was necessary to drift 50 feet and then sink a shaft 50 feet through loose ground in order to reach the body.

River News.

The Tacoma is back in her old trade.
 Another good rain soon will bring about a general resumption of navigation.
 The Courier passed up last night for Pomeroy. The White Collar Line will send a boat to that point to-night.
 The Cincinnati and Higginsport independent packet Helen M. Gould will go through to Portsmouth Saturday night, passing down Monday morning.
 The Kanawha coal fleet made things quite lively Thursday. Most of the boats passed down during the afternoon. The Jessie left a number of barges for local dealers.

The steamboat M. P. Wells was not sold at auction Thursday at Cincinnati, the United States Court having postponed the sale twenty days. This action was taken after the Portsmouth foundry, one of the creditors, filed a suit, putting off the sale on technical grounds. A number of prospective buyers were on hand.

Dr. and Mrs. P. G. Smoot, Mr. Robert Edmond Moss, Mrs. Harry Barkley, Misses Lottie Berry, Lida Richeson, Mamie and Clemmie Tolle, Rosa Watson, V. Buckingham, Anna Frank, Jessie Chisholm and Maude Luman, Mr. and Mrs. J. T. Kackley, Mr. Geo. H. Frank and M. F. Marsh composed a wagon party that drove out to Washington last evening and attended the services at the Christian Church. At the close of the services, the members of the party, with others, were invited to the hospitable home of T. S. Buckingham, minister of the church, where an hour or so was spent most delightfully. Miss Tucker rendered a number of piano solos and Dr. Smoot and others sang several selections. Light refreshments were served and at 10 o'clock the party left for home, returning by way of the Hill City pike, the moonlight drive in the cool bracing air proving a most pleasant one.

M'CREARY LEADS.

Madison County Candidate May Get Caucus Nomination For U. S. Senator on First Ballot.

LOUISVILLE, Nov. 20.—The race for United States Senator from Kentucky is nearing an end. The Legislature convenes January 7th, and ex-Governor James B. McCreary seems to be the leading candidate. His friends claim for him forty votes in the caucus. Fifty votes will nominate.

Congressman Charles K. Wheeler looks like he is second in the race. He claims to have thirty-two votes. There will be 100 votes in the caucus, and this leaves but twenty-eight votes between the other two candidates, J. E. Cantrell and D. H. Smith, with Mr. Cantrell in the lead.

Mr. McCreary's friends claim that he will get the nomination on the first ballot.

Worth Filing Away.

[Terre Haute Gazette, Dem.]
 It is worth filing away with the Durbin letter for future reference. An especially strong point in his plain showing that Gov. Durbin so misquoted Judge Cantrell's charge to the jury in the Powers case as to make the Judge say precisely what he did not say. To falsify a record in order to sustain a charge against a Judge, and that charge one of unfairness, is as damaging as anything could well be.

PERSONAL.

Stockings!

For everybody—men, women and children. By all odds the best money's worth in town—or out of it for that matter. But everybody says "best"—whom will you believe?—yourself—your own judgment? Come, examine, feel the material, see how the stockings are made. Did you ever meet such values for 15c? For 39c. we're selling great 50c. fancy Stockings (men's and women's). Better than you can buy elsewhere for 50c. And you know—if you don't you should—that we sell the Challenge 25c. Stocking. Why challenge? Because it defies competition. It's our stocking leader. It can't be equalled anywhere at the price. And we're here to back that statement to the limit. It's the stocking "built to wear," and the fact that it outwears any 25c. stocking in the market accounts for its marvelous popularity.

D. HUNT & SON

A BAD TANGLE.

That's What the Action of the Republican Members of the Court of Appeals May Lead to.

Commenting on the action of the four Republican Judges of the Court of Appeals awarding the office of Attorney General to Hon. Clifton J. Pratt and ousting Hon. Robert J. Breckinridge, Judge Hobson, in the minority opinion of the three Democratic Judges, considers the majority opinion of the court most far reaching in its consequences. He says that under the ruling laid down the statutes of Kentucky and of nearly all the States making the City Councils of cities and towns the sole judges of the eligibility and election of their own members are unconstitutional, though their validity has never been assailed in this State. Judge Hobson discussed the main questions argued in the majority opinion, one of which was that of the power of the Legislature under the new Constitution to elect subordinate officers for the State government not named in the Constitution. This question, Judge Hobson says, was not raised in the case nor in the argument of it. He reviews the steps taken to test the constitutionality of the Goebel election law, which the Appellate Court upheld, showing that the members of the State board which heard the contest had been regularly adjudged by this court to be entitled to their offices, and holds that the acts of a de facto officer are valid between third persons, however invalid they may be as far as he is concerned.

As to the question of the authority of the Legislature to confer on the State board the power to hear a contest, Judge Hobson says that this court has always heretofore taken this view, and that it may be safely asserted, from the authorities, that the result of an election is a political question properly within the sphere of the legislative department, and that the courts have only such jurisdiction in the matter as the law may confer.

According to the ruling of the court the General Assembly had no power to elect a State Election Commission, and some lawyers claim that if that body was not a legal one its certificate of election

to Judge Pratt was not a legal document and he has no more claim to the office than the incumbent, Mr. Breckinridge.

Baby's Coming

McDonald, Ga., July 18, 1900.
 I advise every suffering woman to take Wine of Cardui. While I was going with my other children I was compelled to stay in bed for days at a time, but this time I have taken Wine of Cardui and Theodor's Black-Draught and have been able to do all my housework without any trouble. I am expecting every day to be confined. My husband thinks Wine of Cardui is the best medicine in the world. He takes a dose of Theodor's Black-Draught every night and gives some to the children. He has not lost a day from work this year. He tells his friends about your wonderful medicines and I tell my lady friends to use your Wine of Cardui.
 Mrs. GEORGIA LEE.

WINE OF CARDUI

There are thousands of women who shrink in terror at the thought of the baby's coming. But childbirth is one of the workings of Nature and it was not intended to imply torture and agony to the heroic mothers of the race. The woman who suffers torture during pregnancy and at childbirth has usually, by some indiscretion, injured the organs which make her a woman. Neglect of menstrual irregularities leads to ovarian pains, falling of the womb and leucorrhoea, and the period of pregnancy is necessarily distressing under those conditions. Wine of Cardui will regulate the menstrual function perfectly and eventually make the generative organs strong and healthy. Pregnancy and childbirth have no terrors for the woman who takes this pure Wine. A strong healthy womb will bring its precious burden to maturity with little or no pain. A healthy woman need not fear childbirth. Wine of Cardui completely cures all these troubles familiarly known as "female diseases" and equips the sensitive generative organs for pregnancy and childbirth. It will save any mother much pain and suffering. All druggists sell \$1.00 bottles.

THE BEE HIVE

Rummage Sale Saturday Night!

A RUMMAGE SALE!

By this we mean "cleaning house." We started in this week to look through stock. Before we finish we expect to upset every nook and corner in the store—the contents brought out and MARKED DOWN. One of our cardinal principles is to carry nothing from season to season, but some things are bound to be musued, some are sure to get soiled, others get nearly all sold. In dress goods colors are missing, in underwear sizes are gone and what are odd lots to a store like The Bee Hive? On Saturday night we will have a

Rummage Table!

We will put the odd lots on this table. The thing is to sell the odd sizes to the people they fit. Will they come if we mark them about half? We think they will—in throngs. All goods are this season's, but new numbers have taken place of broken sizes. This Saturday night will be mostly Underwear. Come and see if your size is here.

STUDENT OF ARCHITECTURE.

A Former Maysville Lady Perfecting Herself in This Profession—Will Assist Husband in His Work.

The Cincinnati Times-Star Thursday contained the following in reference to a lady who is universally admired here in former home for her sterling worth and many noble qualities of heart and mind. Mrs. Choate is the oldest daughter of Mr. and Mrs. Jos. H. Dodson. The Times-Star says:

"In these days of progress women have entered almost all fields of labor—even the intricate profession of the architect has now its students among clever women. Few as yet have entered this field and those who have are regarded in the light of progressive pioneers. At the Ohio Mechanics' Institute of Cincinnati there is only one female student of architecture—Mrs. Charles E. Choate, a bright Southern woman. Mrs. Choate comes from Augusta, Ga., and has spent some time in the Cincinnati institute, studying what to her is a most fascinating subject. Mrs. Choate's husband is an architect, and her object in taking up this profession, almost foreign to women, is that she may become proficient enough to be his draughtsman, or draughts-woman, to change the phrase. She is taking a special course in perspective and will make a specialty of interior decoration. During her stay in the Queen City Mrs. Choate has given some of her attention to music, being a pupil at the Cincinnati Conservatory of Music. She is a neice of Mrs. H. R. Blaisdell, of Stickney Flats, Covington."

CHOSE HER HUSBAND.

And Her Mother Swooned and Had to be Carried From the Court Room.

[Enquirer Special.]

HUNTINGTON, W. V., November 20.—Robert Day, a Maysville, (Ky.) journalist, and Miss Bessie Horrocks, the daughter of Councilman Horrocks, of Ashland, one of that city's wealthiest citizens, met a week ago for the first time. A wedding followed two days later, and when the parents of the young woman heard of it, the girl being a visitor in Maysville at the time, they were greatly enraged.

The father of the bride wired for them to come and receive the parental blessing. They came, but the daughter only was received at the home, her husband, at the point of a revolver, being told to leave. The girl's mother brought her here to visit relatives, but Day followed.

Judge Matthews, of the Criminal bench, was appealed to and granted a writ of habeas corpus, and at the midnight hour the young woman was awakened by the Sheriff and brought into court. On seeing her young husband she rushed across the room and threw her arms about his neck. The Judge, after hearing the evidence, left it to the girl to choose between husband and parents.

The poor mother knelt in the courtroom and offered up a prayer that her daughter might choose to return home. Her prayer was not answered. The daughter said she would remain with her husband. Mrs. Horrocks swooned away and had to be carried from the room. She is in a serious condition.

The bride and groom were driven in a closed carriage to Kenova and took a train for Columbus. They will not return to Ashland or Maysville until the father's wrath subsides. The father was here to-day, thinking them yet in town.

IT'S A TREAT

ALL AROUND TO DEAL IN OUR HOUSE.

You can buy here with your eyes closed for you know you will be fairly dealt with. It's a treat to us to enjoy a patronage that has implicit confidence in us. It may sound a bit boasting when we say we deserve this confidence, yet it's the truth. In hundreds of cases we're more particular as to the exact fit and style of a garment a customer selects than he is himself.

The extreme care we exercise in fitting our customers is the advertising medium that brings the multitude to our house.

For the cold snap we are offering some rare bargains in Ulsters and Storm Coats. Excellent Coats for \$5, \$7.50 and \$10. All of these garments are worth nearly double what we sell them for. The tardiness of the cold weather leaves us with too many on hand, hence the cut in price. If you have not tried a pair of our water resisting Shoes, try a pair. They will satisfy you. See our new line of Mufflers, Handkerchiefs and Gent's Merino Half-Hose.

BANK TAX CASE.

Important Decision Rendered by the Court of Appeals as to Right of Cities to Recover.

FRANKFORT, KY., Nov. 19.—At to-day's session of the court Chief Justice Paynter handed down an opinion reversing the judgment of the Franklin Circuit Court in the case of the Board of Councilmen of the city of Frankfort against the Deposit Bank of Frankfort. The opinion holds that the right to recover city taxes from a bank for the years 1893 and 1894 is not barred by the judgment of the Supreme Court of the United States, delivered in the back tax cases enjoining municipalities from the collection of taxes for the years 1895, 1896, 1897 and 1898. The Federal Court held that the appellee had no contract rights with the State which relieved it from the payment of taxes to the city of Frankfort for the years last mentioned, but by reason of an unreversed judgment of the Franklin Circuit Court in this case, rendered in 1896, the appellant was barred from recovering.

The opinion of the court here is one of importance. In reversing the lower court's judgment in favor of the bank, Justice Paynter says: "The most that can be said as to the Federal Court's judgment is that it, though based upon an erroneous judgment subsequently reversed, is a bar to the recovery of the taxes for the years then in question. Certainly the judgment of the Franklin Circuit Court could not be available as a bar to the city's rights only so long as it remained in force. The judgment of the Federal Court could not and did not prevent this court from reversing it. When reversed it is not available in this or the Federal Court as a bar to the right of a city to collect the taxes here claimed by the city."

FRANK OWENS HARDWARE COMP'Y.

A NEW BRICK.

It is Made Entirely of Sand and Capable of Withstanding a Great Pressure.

[Journal of Building.]

C. G. Smith, an experienced mason contractor in Minneapolis, has invented a composition to be used as a substitute for brick and stone, which, if statements concerning it are true, promises to be a most economical and convenient material. It is composed chiefly of sand and can be manufactured in any form or color desired, but the most preferable color is said to be a dark drab. It is similar in appearance to terra cotta, but has not the smooth surface of the latter, which is attributable to the fact that it is made of sand instead of clay. A brick made of this composition was recently subjected to a severe test by building inspector Houghton, of Minneapolis. The brick, which was four weeks old, was immersed in water for eight hours, then exposed to a temperature of fifteen degrees below zero. When solidly frozen it was thawed on a hot stove, and it was found that it had a sustaining quality to support a crushing load of 2,250 pounds to the square inch, being equivalent to thirty-six tons on a brick of the usual dimensions. Mr. Smith has for a number of years been foreman on United States work in Washington. Interested with him are Kees and Colburn, Fremont D. Orff and other architects and capitalists.

Cheapness of Human Life.

A jury in this city was easily satisfied yesterday when it pronounced "not guilty," a homicide on his own testimony that he was too drunk to know what he was doing when he fired a revolver and killed his victim. The man was undoubtedly slain, and the act can hardly be termed an irresponsible and blameless

accident. The disregard of human life by a drunken man is not to be lightly passed over. If there is anything short of criminality in a drunken man firing a revolver indiscriminately among bystanders it is hard to tell where it comes in.

The leniency with which some juries look upon the careless destruction of life is shocking. A verdict of manslaughter, with a prison sentence, such as would have been imposed had the defendant been guilty of stealing a cow or a mule, would have shown more regard for the life that was so wantonly taken, and might have saved many lives.

PITHY POINTS.

Taylor appears to be more sought after, and the subject of vastly more inquiry as a citizen of Hoosierdom than he ever was while a resident of Kentucky.

Bradley might be termed "the last rose of summer," as it's very probable he will be the last Republican governor Kentucky will have seen for so decades.

Some men are born great, others achieve greatness, while others still have greatness thrust upon them. Taylor, doubtless, would line up under the last heading.

It looks as though there needn't be much delay about finding a verdict in the Schley case; particularly as peremptory instructions to find for plaintiff were given by the whole American people.

It mayn't be said of Taylor that he crossed the "Rubicon" because he was heroic or great or renowned; but he put the river between himself and Kentucky because he was small and insignificant and guilty.

What's all this rumpus about Deboe anyhow? It isn't Deboe that's changed, for he's the same he was when he was imposed on the people of Kentucky; so it must be that those who are responsible for him are the ones that have changed.

Deboe is a fair sample of the carpet bag Senators who disgraced and misrepresented the South during the reconstruction period. The facts are that Republicanism in the North and Republicanism in the South are two different things entirely.

Mammoth Tunnel Project.

Truckee, Cal., Nov. 21.—That the Southern Pacific is determined to reduce the elevation of its present high line over the Sierras from Truckee to Colfax is evidenced by the fact that a party of engineers has taken the field to run preliminaries for a cut-off, including a tunnel. The engineers are at work on a new line to begin at Donner Lake with the intention of coming out on the Yuba river near Cisco. By the new tunnel the line will be reduced eight miles and the elevation of the road reduced 1,000 feet. The tunnel will have to be six miles in length.
